From the great success of this company they are enabled to offer superior advantages to policyholders.
Life policies are issued, payable in annual or in five, or
in semi-annual installments, and provide a sum
payable in ten annual payments, which are paid at death,
or arriving at any particular age. Life insurance as an
investment is no superior, as it has saved millions of dollars to
the insured, and the amount of money from rates of
dividends and bonuses, thus enabling them to continue their
policy, if otherwise unable to do so.

This favorable feature has been the means of saving many
policies that would have been forfeited for want of means to
continue them, and in several instances families, once wealthy,
have been ruined.

The office of the Company has been removed to the new
Building, No. 16 and 18 Broadway, where their prospects
may be had on application.
